Next Go Round

Nickelback

I wanna do it 'til the sun comes up Till we're both so good and sweaty we can't stand up I wanna do it till we're both about to drop As long as we're caught in together, we're never gonna stopI wanna go until the neighbors all complain 'Cause they heard somebody screaming and they think we're both in pain I wanna go so long your parents think you died They're gonna call the cops, the CIA and then the FBIYeah, we're gonna love it when the lights go down Hold on here we go Yeah, we're gonna go until our legs give out Round and round we go Yeah, we're gonna do it hanging upside down Up and down we go Yeah, we're getting ready for the next go round Round and round we go Shut the windows, lock the doors, unplug the phone For all intents and purposes, there ain't no body home Then we can do it 'til the batteries are gone And borrow two from the TV remote to throw this thing back onI wanna cover you with jello in the tub We can roll around for hours without ever coming up I want you naked with your favorite heels on Slap John Deere across my ass and ride me up and down the lawnYeah, we're gonna love it when the lights go down Hold on here we go Yeah, we're gonna go until our legs give out Round and round we go Yeah, we're gonna do it hanging upside down Up and down we go Yeah, we're getting ready for the next go round Round and round we go Yeah, we're gonna love it when the lights go down Hold on here we go Yeah, we're gonna go until our legs give out Round and round we go Yeah, we're gonna do it hanging upside down Up and down we go Yeah, we're getting ready for the next go round Round and round we go
