

# Keep Moving

Ivy

There are traces of the people  
And the faces I have known  
As the bus stops at the building  
The place that I called home  
Thought I'd left forever  
Never thought that I'd return  
But everyday, I make my way  
I guess I never learn I never meant to hurt you  
No matter what I said  
I never did desert you  
You are still inside my head  
The earth will keep on turning  
The sun will always rise  
Don't know why, seems like I  
I'm always so surprised  
I can't sleep at night  
Life is black and white  
And all I can do  
In a world without you  
Is keep moving  
Keep moving  
Is keep moving  
Keep moving I'm living, but I'm nowhere  
Wondering what to do  
I know that I am someone  
But I can't remember who  
Words are never simple  
And looking back in time  
Has only shown me what I know  
There's nothing left that's mine  
Staring at the skyline  
The light is almost through  
It's going out of focus  
It's breaking into two  
So I leave again like always  
And I try to find my way  
It'll be awhile, but I know I'll  
Be coming back someday I can't sleep at night  
Life is black and white  
And all I can do  
In a world without you  
Is keep moving

Keep moving  
Is keep moving  
Keep moving I can't sleep at night  
Life is black and white  
And all I can do  
In a world without you  
Is keep moving  
Keep moving  
Is keep moving  
Keep moving
