

Revolution

Galantis

I wander forever to find it, remember
So I run with the sun and the air til I feel it
Run away to something I believe in
The only place to go is where my heart beats faster
All we ever need is a reason for a revolution
All we ever need is a reason for a revolution
Let the song go
Let the song go
Let the song go
There's nothing that compares to heaven, I hear in my head
So I run with the sun and the air til I feel it
Run away to something I believe in
The only place to go is where my heart beats faster
All we ever need is a reason for a revolution
All we ever need is a reason for a revolution
Let the song go
Let the song go
Let the song go
