

# Skyway Avenue

## We The Kings

She said lets change our luck  
This night is all we've got  
Drive fast until we crash  
This Dead End life Sweet dreams that won't come true  
I'd leave it all for you  
Brick walls are closing in  
Let's make a run tonight Blinded by the lights...  
Hold you through forever  
Won't let you go  
'Cause if you jump, I will jump too  
We will fall together  
From the building's ledge  
Never looking back at what we've done  
We'll just say it was love  
'Cause I would die for you on Skyway Avenue  
She said don't change your mind Let's leave this town behind  
We'll race right off the cliff  
They will remember this  
It all got so mundanewith you I'm back again  
Just take me by the hand  
We're close to the edge  
Blinded by the lights... Hold you through forever  
Won't let you go  
'Cause if you jump, I will jump too  
We will fall together  
From the building's ledge  
Never looking back at what we've done  
We'll just say it was love  
'Cause I would die for you on Skyway Avenue  
Where are your guts to fly?  
Soaring through Through the night  
And if you take that last step I'll follow you  
Leave the edge and fly  
We're finally alive  
'Cause if you jump, I will jump too  
We will fall together  
From the building's ledge  
Never looking back at what we've done  
We'll just say it was love  
'Cause I would die for you on Skyway Avenue  
So what's left to prove?

We have made it through
