

Dreams (feat. Yxng Bane)

Ella Eyre

Why you in my dreams? Don't know much about you But I heard about you for the longest time
And I see you 'round whenever I go out
With some friends of mine And I remember when I saw you standing in a different light
It's funny where my mind goes when I'm in my bed at night though 'Cause I push you away in
real life
You ain't even close to my type
But when I'm sleeping
Everything's upside down, upside down, yeah I saw you last night in my, my dreams
It felt so beautiful, I almost believed
We were a thing and I liked it
I never looked at you like this
Till I saw you last night in my, my dreams
Why you in my dreams?
(Why you in my? Why you in my?)
Why you in my dreams?
(Why you in my? Why you in my mind?) Fell asleep at nine
And once I closed my eyes, girl, you were so, so mine
We laid in the dark, you left in morning light
But, girl, it felt so right
And if it's in our minds then we should make it life
Girl, I mean real, real life
Nothing's never for ya
We were all and over for ya 'Cause I push you away in real life
You ain't even close to my type
But when I'm sleeping
Everything's upside down, upside down, yeah
I saw you last night in my, my dreams
It felt so beautiful, I almost believed
We were a thing and I liked it
I never looked at you like this
Till I saw you last night in my, my dreams Why you in my dreams?
(Why you in my? Why you in my?)
Why you in my dreams?
(Why you in my? Why you in my mind?) If I gotta fall asleep, sleep to see ya
Then I'm gonna fall asleep, sleep to see ya
It's different in the daylight
Miss you, I don't know why
If I gotta fall asleep, sleep to see ya
Let me fall, fall deep, deep to see ya
It's different in the daylight
See you in a new light 'Cause I push you away in real life
You ain't even close to my type

But when I'm sleeping
Everything's upside down, upside down, yeah I saw you last night in my, my dreams
It felt so beautiful, I almost believed
We were a thing and I liked it
I never looked at you like this
Till I saw you last night in my, my dreams Why you in my dreams?
(Why you in my? Why you in my?)
Why you in my dreams?
(Why you in my? Why you in my mind?)
