

Pariah

Bullet for My Valentine

You're the reason I feel so alive
(I feel so alive)
You're the craving that tears me apart from the inside
You're my downfall, the one I obey
(The one I obey)
I'm the monster, the freak that you need and it's okay
Is this sick and depraved?
I see hell it's divine
Is this twisted and crazed?
Or a brilliant disguise
It starts out a fantasy
Then turns into misery
I'll be your pariah
Take it out on me
Eyes shut, no reality
A sucker for your vanity
I'll be your pariah
Take it out on me
I came to you like a moth to a flame
I was the piece of the puzzle you played in your own game
(I'll play your game)
I should have known by the look in your eyes
But now we've gone too far
Now I'm holding on tight
Trying hard just to survive
Is this sick and depraved?
I see hell it's divine
Is this twisted and crazed?
Or a brilliant disguise
It starts out a fantasy
Then turns into misery
I'll be your pariah
Take it out on me
Eyes shut, no reality
A sucker for your vanity
I'll be your pariah
Take it out on me
You know it's what I need
So come and take it out on me
Is this sick and depraved?
I see hell is divine
Is this twisted and crazed?
Or a brilliant disguise
It starts out a fantasy
Then turns into misery
I'll be your pariah
Take it out on me
Eyes shut, no reality

A sucker for your vanity
I'll be your pariah
Take it out on me
