## Alejandro Escovedo

If I should write a book for you  
That brought me fame and fortune too  
That book would be like my heart and me  
Dedicated to you  
And if I should paint a picture too  
That showed the loveliness of you  
My art would be like my heart and me  
Dedicated to you  
To you because your love is the beacon  
That lights up my way  
To you because with you I know  
A lifetime could be just one heavenly day  
If I should find a twinkling star  
One half so wondrous as you are  
That star would be like my heart and me  
Dedicated to you  
To you because your love is a beacon  
That lights up my way  
To you because with you I know  
A lifetime could be just one heavenly day  
If I should find a twinkling star  
One half so wondrous as you are  
That star would be like my heart and me  
Dedicated to you
