

Nicole

Louis Berry

I said hey you
Come get to know me
I like you near me
I make you mine You see I know you got someone
But I don't think he right
You can give him your love
But he'll take your heart
And he won't love you tonight You see I knew the moment I met ya
That you'd be the apple of my eye
And I can give you all the reasons but you just won't believe me
And anything I can do I've tried
But I'm not gonna be no jailer to ya
If you come my way
I'm happy to come if you say so
It's a given its not ok though
Come on baby
I need to know
I said Nicole
I need to know
Everybody wanted ya
Everybody had to get told
That you were mine
I said Nicole I know what your feeling baby
Out there on your own
I know he's got you going crazy
Your like a dog without a bone
See I don't wanna keep ya
Locked away in the house
I'm coming to get ya cause I'm gonna get ya to keep ya
Mmm hmm
And I'm gonna get you tonight But I'm not gonna be no jailer to ya if ya come my way
I'm happy to come if you say so
It's a given its not ok though
Come on baby
I need to know
I said Nicole
I need to know
Everybody wanted ya
Everybody had to get told
That you were mine
I said Nicole
I need to know

Everybody wanted ya
Everybody had to get told
That you were mine
I said Nicole
