

Bullet

Christian Burns & Stefan Dabruck

A bullet through my heart but I'm still breathing
I'm lying in the shadows on the floor, whoa
Run to me, you gotta help me tear this wall down
So we can see a bright heart that's in the distance
Come to me, you gotta take away this blackness
So I could see again
A bullet through my heart but I'm still breathing
I'm lying in the shadows on the floor, whoa
A bullet through my heart but I'm still breathing
In trouble who knows who'll bring me back to life
Rush to me, so we can blow away this sadness
Oh for me, it's getting hard to see the sky now
Come to me, I wanna touch your skin with my hands
So I can see again
Oh, don't want it, don't want it, don't want it now
Tell me now
Don't want it, don't want it, don't want it now
A bullet through my heart but I'm still breathing
I'm lying in the shadows on the floor, whoa
A bullet through my heart but I'm still breathing
In trouble who knows who'll bring me back to life
A bullet through my heart
A bullet through my heart
Oh, don't want it, don't want it, don't want it now
Tell me now
Don't want it, don't want it, don't want it now
In trouble who knows who'll bring me back to life.
