

All the Way Down

Little Big Town

Rock me like a lullaby, roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, play me like a steel
I'm going down, down, all the way down
Down, down, falling all the way down
Stand where the good love lies
Be my man, I'll be your alibi
Wonderland, wanna give it a try
Let it ride

Rock me like a lullaby, roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, play me like a steel
I'm going down, down, all the way down
Down, down, falling all the way down
Here, where it all feels right
Crystal clear as a southern sky
Oh my dear, you set my love on fire
Every time

Rock me like a lullaby, roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, play me like a steel
I'm going down, down, all the way down
Down, down, falling all the way down
You gotta show me now
Show me now
You gotta show me now
Stand where the good love lies
Be my man, I'll be your alibi
Wonderland, wanna give it a try
Let it ride, let it ride

Rock me like a lullaby, roll me like a wheel
I'm going down, down, all the way down
Love me like a superstar, play me like a steel
I'm going down, down, all the way down
Down, down, falling all the way down
Down, down, all the way down
Down, down, all the way down
Down, down, all the way down
Down, down, falling all the way down
