## All the Way Down

## Little Big Town

Rock me like a lullaby, roll me like a wheel I'm going down, down, all the way down Love me like a superstar, play me like a steel I'm going down, down, all the way down Down, down, falling all the way down Stand where the good love lies Be my man, I'll be your alibi Wonderland, wanna give it a try Let it ride Rock me like a lullaby, roll me like a wheel I'm going down, down, all the way down Love me like a superstar, play me like a steel I'm going down, down, all the way down Down, down, falling all the way down Here, where it all feels right Crystal clear as a southern sky Oh my dear, you set my love on fire Every time Rock me like a lullaby, roll me like a wheel I'm going down, down, all the way down Love me like a superstar, play me like a steel I'm going down, down, all the way down Down, down, falling all the way down You gotta show me now Show me now You gotta show me now Stand where the good love lies Be my man, I'll be your alibi Wonderland, wanna give it a try Let it ride, let it ride Rock me like a lullaby, roll me like a wheel I'm going down, down, all the way down Love me like a superstar, play me like a steel I'm going down, down, all the way down Down, down, falling all the way down Down, down, falling all the way down
