Scars (feat. Ryan Tedder)

Alesso

I think scars are beautiful
I think black is white
I'm stuck between the hell I'm in
And where we lieYou say that this could kill youYour words cut like a knife
We are the beautiful mistake That I can't find

So I...

I don't care if it kills me tonight

Cuz I...

I'll be loving these scars for life

And I...

I don't care if it kills me tonightCuz I...

I'll be loving these scars for life

I think we are chemicals

I think dark is light

And I know

Each and every wrong you right

You say that this could kill you

Your words cut like the knife

We are the beautiful mistake

That I can't find

And I...

I don't care if it kills me tonight

Cuz I...

I'll be loving these scars for life

And I...

I don't care if it kills me tonight

Cuz I...

I'll be loving these scars for life

I'll be loving these scars for life
