the call . the way to view my life  
20 cylinders is more for any . pipe  
fuck every bitch worthy in the east coast twice  
call the badders a whore and one to turn?  
triple beans in nipple rings  
this thins is fantasy when you're a king  
eat life from the palm of my hands  
we came out winners from the villagers dancewelcome to the city where anything is possible  
american dream overcome many obstacles  
rainbow . just may lead you to a protocol  
chain so chilly i believe that i'm gonna caught a cold  
but the flow nothing to sneeze at  
de colors all up in my ear like is?  
know . through with the .  
never mind the price in the change .  
chorus  
welcome to the city of dreams  
when you never have to wake up from a nightmare  
so you better pack heavy  
welcome to the city of dreams  
when you never have to wake up from a nightmare  
so you better be readyi am living life at a fast pace  
who said both running in a faster race  
break a deal? the master?

she is fairytale i sell fairy dust  
let the bitch dream i've been fair enough  
i am drop dead in a drop head
