## **Remember Love**

## <u>S</u>

You all say just what you mean I've probably told you more than you should ever know This was always meant to be And I feel it all around you and meSo this would be the perfect time to throw it all away I would give you everything And watch you walk away And it's you that I'll remember when I think of love and all these things How easily it goes awayI begin to get confused But seem to find my way back to you And I always told the truth And I never felt ashamed around you So this would be the perfect time to throw it all away I would give you everything And watch you walk away And it's you that I'll remember when I think of love and awful things How easily it goes away How easily it goes away How easily it goes away
