

# Hyperreal (feat. Ku?ka)

## Flume

We pulled into the back road  
Shimmering this way for  
Wearing out its course end I could only dream about  
What is it and why do, it's white noise All seems so clear  
Let it wash over me  
Don't deserve it  
Visions of hyperreal  
All seems so clear  
Let it wash over me  
Don't deserve it  
Visions of hyperreal  
Rising from the vapour, misted, patterns, voices left behind  
From the vapour, misted, patterns, can we stay a while?  
Guess I'm sick of things being the same  
Doesn't have to be everyday, never change  
Just recycling things I thought were true when I was younger  
But I'm moving on, I should've listened, oh  
The splinters left me blind, I had to change my mind  
But constantly, it all seems so clear  
Let it wash over me  
Don't deserve it  
Visions of hyperreal  
Let it wash over me  
Don't deserve it  
Visions of hyperreal Voices left behind  
Rising from the vapour mist  
Can we stay a while?
