

# How Can I Forget

**Ben E. King**

I want to know, know, know, know, know  
(How can I forget)  
I've got to know, know, know, know, know  
(How can I forget)  
How could I forget  
(Forget her) When I was lonely, she chased away  
The little girl chased away all of my blues  
When I was down and out  
She went somewhere and bought me  
She brought me a brand new pair of shoes  
So tell me, tell me, tell me  
(How can I forget)  
How, how, how, how  
(How can I forget)  
How could I forget  
(Forget her) Yesterday she left for somebody new  
My friends all say forget her  
Go out and do the same they do But how when her kisses still lingers on my lips  
And my cheeks, ask for her finger tips  
Since she's been gone, I can't sleep at night  
And since she's been gone, I can't eat or bite Oh, so tell me, tell me, tell me  
(How can I forget)  
How, how, how, how, how  
(How can I forget)  
How can I forget  
(How can I forget)  
I wanna know how can I forget  
(How can I forget) And I've got to know, I've for got know  
How can I forget  
(How can I forget)  
I've got to know somebody help me forget my baby, baby, baby  
(How can I forget) How can I forget, forget, forget  
(How can I forget)
