

# Reality (with OSITO)

## Jessy & DJ Xquizit

Have you ever seen the water running dry  
Have you ever seen an angel falling from the sky  
Did you ever question the people in your life  
Do you know, do you know, do you know...[Refrain]  
You never have to wonder why  
Always gonna be alright  
Before you ever see the light  
You know the sun always shine  
'cause everything you ever wanted  
Was always forever yours  
Even when your eyes can't see it  
Trust me, it's for sure  
All you gotta do is believe, believe, believe  
Believe, believe, believe...  
All you gotta do is believe, believe, believe  
Believe, believe, believe...  
And make it reality  
(Make it reality)Did you ever had a feeling strong inside  
Telling you what's going on more than you can see in life  
Do you know everything you need that lies inside  
Do you know, do you know, do you know...[Refrain]  
You never have to wonder why  
Always gonna be just fine  
Before you ever see the light  
You know the sun always shine  
'cause everything you ever wanted  
Was always forever yours  
Even when your eyes can't see it  
Trust me, it's for sure  
All you gotta do is believe, believe, believe  
Believe, believe, believe...  
All you gotta do is believe, believe, believe  
Believe, believe, believe...  
And make it reality  
(Make it reality)
