

Dear Diamond

Miranda Lambert

Dear diamond, pretty and new
Perfectly flawless, too good to be true
Dear diamond, you shine like the sun
Wrap around my finger just like he does
You cost more than he wanted to lose
And with this ring I said I do
Promised to never do what I've done
I've been lying to someone
Dear diamond, what will we do?
Lie like the devil or just face the truth
Dear diamond, be my saving grace
What he don't know will kill him
That I can't face
You cost more than he wanted to lose
And with this ring I said I do
I promised to never do what I've done
I've been lying to someone, dear diamond
Dear diamond, with your band of gold
Some people you have, some people you hold
Dear diamond, I promise to keep
This secret I have while he's holding me
