

It Gets Better

Fun.

What have we done? Oh my God!
What have we done? Oh my God! This is really happenin'
You never looked so bored
Can you feel my fingernails?
They've never been so short It's hard to lay a golden egg with everyone around
It's hard to stay inside my head when words keep pouring out Like starlight crashing through the
room, we'll lose our feathers
Yes, I know it hurts at first but it gets better
It gets better, it gets better, it gets better, we'll get better
It gets better, it gets better, it gets better, we'll get better I can taste your summer sweat
It's never been so warm
So can we kick the covers off?
They're always on, it's never been so warm It's hard to keep a straight face when I just want to
smile
If you could see the look that's in your eyes Like starlight crashing through the room, we'll lose
our feathers
Yes, I know it hurts at first but it gets better It gets better, it gets better, it gets better, we'll get
better
It gets better, it gets better, it gets better, we'll get better There's a fire in sky, some snow on the
ground
Not quite enough cigarettes to calm me down What are we doing? Oh my god!
What are we doing? Oh my god!
It gets better, it gets better, it gets better, we'll get better
It gets better, it gets better, it gets better, we'll get better It gets better, it gets better, it gets better,
we'll get better (This is really happening)
It gets better, it gets better, it gets better, we'll get better (This is really happening)
