I got something else in mind, close the blinds, dim the lights And you better bring your appetite I'll make you something real nice If you like a lot of heat Better come up in my kitchen, baby Got everything that you like, why don't you have a little taste? Don't let nothing, don't let nothing go to waste Down down, but you gotta savor it, savor it I know it's your favorite dish Top down, you better put yo feet up You ain't leavin til you eat it all upI just wanna take care of you baby You're the only one I wanna give it to This is all for you I just wanna take care of you baby Read my lips for that's all you gotta do This is all for youOn the kitchen floor, tonight you know it's going down If you want some more baby you know I can throw it back Turn my oven on and it ain't gon be no showin down This is how it's going down, this is how it's You can call it good time, we ain't gotta go out You got a home cooked meal right here Come on and take another bite, that's right, that's right Keep on going till you're satisfied It's the best you ever had, once you taste a piece of that You can never go back baby, yea There's nothing else like this around town Boy I got the sugar that can make you fall downDown down, but you gotta savor it, savor it I know it's your favorite dish Top down, you better put yo feet up You ain't leavin' till you eat it all upI just wanna take care of you baby You're the only one I wanna give it to This is all for you I just wanna take care of you baby Read my lips for that's all you gotta do This is all for youOn the kitchen floor, tonight you know it's going down
