

# Tonight

## Cosmic Gate & Emma Hewitt

If all pathways Just led to now  
Then all I've been through  
Was worth it somehow For every treasure  
That's lost and found  
Through open doorways  
When the lights have burned out... All I want  
Is to be with you  
And feel like I am someone new  
I could breathe  
If we just lay down here tonight  
All I want  
Is to be with you  
I feel you close in all I do I can see  
You light my way so clear tonight... Tonight All I want Is to be with you  
And feel like I am someone new  
I could breathe  
If we just lay down here tonight...  
All I want Is to be with you  
I feel you close in all I do  
I can see  
You light my way so clear tonight...
