

# Nothin' out Here (feat. Thomas Rhett)

HARDY

There ain't nothin' out here but dogs in the yard  
And a couple John Deeres, some?fallin'?down barns  
Yeah, it's?pretty damn clear like lightning in?a jar  
If you passed it on the interstate, I bet you'd say  
There ain't nothin' out here, there ain't a skyline  
If you seen it from a leer jet, I bet you'd ask why  
Anybody down there would wanna live and die  
Somewhere you gotta be lost to go, but they don't know  
We alright with that out-of-touch label  
Turn that dirt into what's on the table  
We don't need no shiny good time  
We're fine with the county line, can of cold beer  
Keep those dust-covered, rusted trucks running  
You kissed on the bus, now you're raising up youngins  
All you're gonna find windin' through the country  
Is some middle-of-nowhere folks  
Makin' somethin' outta nothin' out here  
Yeah, it ain't nothin' out here to wake up with the sun  
Throw your get-'er-done in gear, don't quit until it's done  
Thank the man upstairs that gave you what you got  
May not look like a lot outside lookin' in  
Oh, but then again  
We alright with that out-of-touch label  
Turn that dirt into what's on the table  
We don't need no shiny good time  
We're fine with the county line, can of cold beer  
Keep those dust-covered, rusted trucks running  
You kissed on the bus, now you're raising up youngins  
All you're gonna find windin' through the country  
Is some middle-of-nowhere folks  
Makin' somethin' outta nothin' out here  
Might live a little different out here  
Might be a little simple, little slow like people say  
But at the end of the dayWe alright with that out-of-touch label  
We turn that dirt into what's on the table  
We don't need no shiny good time  
We're fine with the county line, can of cold beer  
Keep those dust-covered, rusted trucks running  
You kissed on the bus, now you're raising up youngins  
All you're gonna find windin' through the country  
Is some middle-of-nowhere folks  
Makin' somethin' outta nothin' out here

Yeah, we're all makin' somethin' outta nothin' out here  
All makin' somethin' outta nothin' out here
