

Best Friends Arm

Pavement

? liar
(i can see, i can see, i can see, i can see)
? ah come on, let's go
(i can see, i can see, i can see, i can see)yeah baby i've lost??
(i can see, i can see, i can see, i can see)
everybody looks like
(i can see, i can see, i can see, i can see)
when you lay that down with an eight-eight track, everybody laughs
but they don't know what you're sayin'
(i can see, i can see, i can see, i can see)
? i guess if not...
(i can see, i can see, i can see, i can see)
keep it under your best friend's arms [x9]
keep it under
