

New Pony

The Dead Weather

1, 2, 3, 4 I had a pony, her name was Lucifer
(How much longer? How much longer?)
I had a pony, her name was Lucifer
(How much? How much? How much longer?)
She broke her leg and she needed shooting
I swear it hurt me more than it could ever have hurt her Sometimes I wonder what's going on
with Miss X
(How much longer? How much longer?)
Sometimes I wonder what's going on with Miss X
(How much? How much? How much longer?)
She got such a sweet disposition
I never know what the poor girl's gonna do to me next
(How much? How much?)
(How much? How much?)
(How much? How much?)
(How much? How much?) They say you're usin' voodoo, your feet walk by themselves
(How much? How much?)
(How much? How much?) They say you're usin' voodoo, I seen your feet walk by themselves
(How much? How much? How much longer?)
Oh, baby, that god you been prayin' to
Is gonna give ya back what you're wishin' on someone else Come over here pony, I wanna climb
up one time on you
Come over here pony, I wanna climb up one time on you
Come over here pony, I wanna climb up one time on you
You're so nasty and so bad
But I love you, yes I do
(How much? How much?)
(How much? How much?)
(How much? How much?)
(How much? How much?) (How much? How much?)
(How much? How much?)
(How much? How much?)
(How much? How much?) (How much? How much?)
(How much? How much?)
