

Afterglow

Closure

Sinking in the sunset here
Alone with you
A photograph so perfect
We'll just stay and never move
But it comes and it goes so fast
We can make it last
Taste the summer afterglow
Take it with you when you go
Remember me when you're back in school
If you cant make it through
Cuz every moment in your life comes down to what you hold inside
I don't have to know you
I just want to hold you tonight
Tonight
Closer than it's ever been with anyone
Living for the moment
There's a flash and now it's gone
Is it killing you like its killing me tonight?
Just remember what's its like
Remember that it comes and it goes so fast
We can make it last
Taste the summer afterglow
Take it with you when you go
Remember me when you're back in school
If you cant make it through
Cuz every moment in your life comes down to what you hold inside
I don't have to know you
I just want to hold you tonight
But you had to go so far away, far away, away
But you'll never be alone, yeah yeah
Taste the summer afterglow
Take it with you when you go
Remember me when you're back in school
If you cant make it through
Cuz every moment in your life comes down to what you hold inside
I don't have to know you
I just want to hold you tonight
I just want to hold you tonight
(Taste the summer afterglow)
I just want to hold you tonight
(Take it with you when you go)
I just want to hold you tonight

(Taste the summer afterglow)
I just want to hold you tonight
Tonight, tonight
