

# It Never Happened

## The National

We look younger than we feel  
and older than we are  
now nobody's funny  
no god, they took our fashion week  
that's a real bad thing  
cause we have scars to cover now I forget how to think  
so crack my skull  
rearrange me  
lover put me in your beautiful bed  
and cover me  
lover put me in your beautiful bed Nothing made a sound in Williamstown that night  
and all the air was empty  
then what to my wondering eyes should appear  
nothing, cause nothing ever happens here now I forget how to think  
so crack my skull  
rearrange me  
lover put me in your beautiful bed  
and cover me  
lover put me in your beautiful bed nothing ever happened here  
nothing ever happened here  
bad things never happen to the beautiful
