

Sadness Is Taking Over

[flora cash](#)

When we were frozen you, you took the cold away...
when we were primal love
you took the old away And now we go to bed and then you turn away do you remember all we
sacrificed? the pain Sadness is taking over
your eyes your eyes
your mouth your mouth yeah
Sadness is taking over
your life your life
your mind your mind yeah
"and it's like nothing ever happened " don't you tell me
"and it's like nothing ever happened"
don't you play with minutes, hours, seconds, eons go
i don't i don't we don't need to know we don't have it, every answer still
could it be that we don't own the will
see life in the right light
it's a bright ride ain't it baby?
one time we were so high
see the bright side won't you baby?
