

# Taste

## Braids

Take me by the hand  
Will you guide me through this phase  
Of not really knowing where I am  
Or knowing who I am I could think of it as  
I gave all my best in loving you  
But I know it's not true  
It's just my way of getting through We experience the love that we think we deserve  
And I guess I thought  
I didn't need much from this world  
So I left you  
But you're exactly what I like  
I will give you my whole life  
Mmmm you taste so nice  
Oh this feels so right Take me by the throat  
Will you push me up against this wall  
And spit all your hurt on me  
So I can feel my reach  
I have these dreams  
Of you laying it on me We experience the love that we think we deserve  
And I guess I thought  
I didn't need much from this world  
So I left you But you're exactly what I like  
I will give you my whole life  
Mmmm you taste so nice  
Oh this feels so right  
We can't explain why  
We hurt the ones we love most of all  
Deep in the iris  
You see a place of hope again
