

Futurama

Hanoi Rocks

My little lover's gonna be another
Copy of Raquel Welch
I'll build her a house and a maid named Jill
And spend tha rest of my life down in Beverly Hills I'll never have to feed her
And she'll stay pretty all the time
Oh, yes she will love the way she's gonna rock and roll
From the early morning 'til late at night
Non stop rock 'n' bop and she'll never ever die When I want money she can go to work
As a roadie for Adam Ant
And if he comes on strong he'll in for a shock
'Cos she'll open his face and clean his clock
I'll never have to feed her
And she'll stay pretty all the time
Oh yeah I love the way she's gonna rock and roll
From the early morning 'til late at night
Non stop rock 'n' bop and she'll never ever die
Rock 'n' roll My little girl, the best in the world
Softer than steel, she's alarmingly real
My mechanical girl, my satanical pearl
You're the best in the world
Wild thing, I think I love you My little lover's gonna be another
Copy of Raquel Welch
I'll build her a house and a maid named Jill
And spend tha rest of my life down in Beverly Hills
I'll never have to clean her
And she'll stay pretty all the time
Oh yeah I love the way she's gonna rock and roll
From the early morning 'til late at night
Non stop rock 'n' bop and she'll never ever die
