

Swollen (feat. Zoë Johnston)

Bent

With you in my garden
its more peaceful inside
I don't need anything else
to make me feel alive You electrify me
And I want to be in your arms
for always
for always Our love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud Our love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud
Our love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud
