

To Be With You

Jamie O'Neal

To be with you
I would risk a thousand lifetimes
To be with you
There's no mountain that I wouldn't climb
If you're the sky
Let me be the cloud that runs right through you now
You don't know just how I need to be with you there can be no substitute
To be with you
I've tried to hide my passion but it's
Just no use
Piece by piece I lose it when you
Walk in the room
How can I get through
If I can't be with you
Everytime I close my eyes I see your face
I taste you on my lips
Every night I fantasize
That I can feel you on my
Fingertips To be with you, there's
nothing that I wouldn't do
I'm powerless
Swept under by your sweet caress
I'm fadin' fast
One look at you and I forget just who I am
I come unglued if I can't
be with you Everytime I close my eyes
I see your face I taste you on my lips
Every night I fantasize
That I can feel you on my fingertips
(This verse once more)
To be with you
I would risk a thousand lifetimes
There's no mountain I wouldn't climb
To be with you, to be with you
Everytime I close my eyes
Everynight I fantasize about you baby
and you're right here with me
I would risk a thousand lifetimes... To be with you.
