

# Felt

## Garbage

Felt sure you felt something  
Felt sure I know you were sleeping  
You felt you're only kissing  
They're only feelings, baby, they're only feelings Felt I'd left you hanging  
Felt sure the silence of killing  
You felt but I saw you leaving  
They're only feelings, baby, they're only feelings What's real is real inside  
What's real is real inside  
What's real is real inside  
What is real  
I still get you, do you still get me  
Felt icy on my skin  
Felt sure sensational clinging  
You felt your electrical thinking  
They're only feelings, baby, they're only feelings
