

Radio On

Kylie Minogue

Ooh, it's Saturday night
Or has Sunday started?
'Cause when morning light comes and
You're broken hearted
We were close to somethin'
Ended up with nothin'
All I hear is echoes
Of the words we said
All the battles they played over in my head
We were close to heaven
Now it's gone to hell
And so I roll the windows down
And I just fade you out
And it rolls like thunder and it hits like lightnin'
When you're going under, it lifts you up again
Right now that kick drum feels like a heartbeat
And I'm falling for that long lost melody
I put the radio on
Saving myself with a song
I put the radio on If I keep driving
Keep movin' forward
'Cause there's nothing worth me turning this around
I've been hiding these miles between us
So I'll keep the volume up to drown you out
Forget you were around
And it rolls like thunder and it hits like lightnin'
When you're going under, it lifts you up again
Right now that kick drum feels like a heartbeat
And I'm falling for that long lost melody
I put the radio on
Saving myself with a song
I put the radio on I really need a love song to rescue me
I really need a love song that I believe And it rolls like thunder and it hits like lightnin'
When you're going under, it lifts you up again
Right now that kick drum feels like a heartbeat
I'll start falling for that long lost melody
And I'll find out who it is I'm supposed to be
I put the radio on
Saving myself with a song
I find the strength to move on
There in the moment, I'm strong

I put the radio on
