

Invisible

Big Time Rush

Do you ever wonder
when you listen to the thunder
And your world just feels so small
Put yourself on the line and time after time
Keep feeling inside that they don't know you're alive
Are you out of mind or just invisible
But I won't let you fall
I'll see you, through them all
And i just wanna let you know Oh
when the lights go down in the city
You'll be right there shining bright
You're a star and the sky's the limit
And I'll be right by your side Oh, you know
you're not invisible to me
Oh, you know
you're not gonna be invisible
Do you ever think of
what you're standing at the brink of
Feel like giving up, but you just can't walk away And night after night, always trying to decide
Are you gonna speak out or get lost in the crowd Do you take a chance of stay invisible
But I won't let you fall
I'll see you, through them all And i just wanna let you know
Oh
when the lights go down in the city You'll be right there shining bright
You're a star and the sky's the limit
And I'll be right by your side
Oh, you know
you're not invisible to me
Oh, you know
you're not gonna be invisible
Gotta look far I'll be where you are I wish you could see what I see
So don't ask why
just look inside
Baby it's all you need
And I don't understand why you won't (you won't) Take my hand and go
Cause you're so beautiful
And everytime that
Oh
when the lights go down in the city
You'll be right there shining bright
You're a star and the sky's the limit
And I'll be right by your side

Oh, you know
you're not invisible to me
Oh, you know
you're not gonna be invisible
Oh
when the lights go down in the city
You'll be right there shining bright
You're a star and the sky's the limit
And I'll be right by your side
Oh, you know
you're not invisible to me
Oh, you know
you're not gonna be invisible
