## Last Night

## **Good Charlotte**

Let's goAll that I remember Is that you had me at hello I knew right when I met herThat I wouldn't take it slow The more we heard the music, the more we got in sync The more I kept you laughing, the less I stopped to think The last thing I remember, you said this place is beat It must have gotten crazy 'cause I can't recall a thing Last night (last night) Can't remember? (Remember) What happened? (What happened?) Where'd we go? I woke up (Woke up)This morning (This morning) Where's my car?Where's my keys? Where's my clothes? I feel my head's still spinning But I'm doing alright(Hey) 'Cause I think I just had the best night of my life Last night (Last night) Can't remember (Remember) What happened? Did it happen? Last nightEveryone's been calling Like I've been gone for days There's a note left on the tableAnd all it says is "Thanks" It's starting to get dark outside, I'm finally awake I'm feeling kind of guilty; is there something I can take? There's lipstick on my collar, I'm piecing it together Then I see a picture of me and you Last night(Last night) Can't remember (Remember) What happened? (What happened?)Where'd we go? I woke up (Woke up)This morning

(This morning) Where's my car? Where's my keys?Where's my clothes? I feel my head's still spinning But I'm doing alright (hey) 'Cause I think I just had the best night of my life Last night(Last night) Can't remember (Remember)What happened? Did it happen? Last NightAnd did I get the chance to say That I wanted you to stay There's things I can't explain 'Cause my brain don't work that way Don't call this a one night stand, no, it wasn't planned Wasn't in my head but I just wanna do it againAnd again and again just like Last night (Last night) Can't remember (Remember)What happened? (What happened?) Where'd we go? I woke up (Woke up) This morning (This morning) Where's my car? Where's my keys? Where's my clothes? I feel my head's still spinning But I'm doing alright (hey) 'Cause I think I just had the best night of my life Last night (Last night) Can't remember (Remember) What happened? Did it happen? Did it happen? Last Night
