

# CPR

## Summer Walker

Caught me at the right time baby (oh)  
I was at edge, I was at the end  
Made me feel like there is life we're living  
Made me feel alive oh yeah  
Tell me insideBaby where would I be without your love inside me, oh  
Baby where would I be? Probably gone, ohCause it feels like CPR  
Cause it feels like CPR  
Mm, made me love again like  
Know this I can't stand you, oh  
I don't wanna talk 'bout it  
Cause no one understands me no  
You're the only one I confide into darling, ohPatient lover oh my day  
How you mince my heart oh darling  
Everything I've done you knew you known  
I ain't really never had a home  
Never really hate feeling alone  
Maybe you can make me feel at home, babyI hate feeling alone  
I hate feeling alone, baby oh  
I hate feeling alone  
I hate feeling alone, baby  
I need you here at home, baby  
You're the only one who knows  
You're the only one who knows  
Where would I be, be
