

# This One's for the Children

## New Kids On the Block

This is a very serious message, so all of you please listen  
There are some people  
Living in this world  
They have no food to eat  
They have no place to go  
But we all are God's children  
We have to learn to love one another  
Just remember, they could be us  
Remember, we all are brothers  
I'm not tryin' to darken up your day  
But help others in need  
And show them there's a better way  
This one's for the children  
The children of the world  
This one's for the children  
May God keep them in His throne, hoo  
Many people are happy  
And many people are sad  
Some people have many things  
That others can only wish they had  
So for the sake of the children  
Show them love's the only way to go  
'Cause they're are tomorrow  
And people, they've got to know  
I'm not tryin' to darken up your day  
But help others in need  
And show them there's a better way  
This one's for the children  
The children of the world  
This one's for the children  
May God keep them in His throne  
This one's for the children  
The children of the world  
This one's for the children  
May God keep them in His throne  
This one's for the children  
This one's for the children  
This one's for the children  
This one's for the children  
This one's for the children  
This one's for the children  
This one's for the children  
This one's for the children
