

Corners of the Earth (feat. RY X)

ODESZA

Tonight we run
We run into the sun
We run into the corners of
The love we choose to make Tonight we show
We show where we belong
The places I have never been
The places we are strong Tonight we're golden
We fall towards each other
We fall to the edges of the earth
We burn tonight as one Tonight we run
Through love we never knew
Our love to everyone
We love tonight for love
We're golden
We're golden
We're golden
We're golden
