

# Treasure

## The Cure

She whispers  
Please remember me  
When I am gone from here  
She whispers  
Please remember me  
But not with tears...  
Remember I was always true  
Remember that I always tried  
Remember I loved only you  
Remember me and smile...  
For it's better to forget  
Than to remember me  
And cry  
Remember I was always true  
Remember that I always tried  
Remember I loved only you  
Remember me and smile...  
For it's better to forget  
Than to remember me  
And cry
