

Warm Water (Snakehips Remix)

Banks

Looking you over and you don't know my name yet
But by the time you looked away, already knew I couldn't fake it I got this need for you,
forming in my beating heart
I knew the meaning right away, we only yesterday were worlds apart I think I may love you
If you give me some time
Maybe you'll love me too I got this thing for you
If you come closer I can whisper in your ear
And if you wanna walk away
I'll tell you all the things I know you wanna hear
I'll come closer to you
If you come over
I know we'll go farther
Farther with you
With you i'm in warm water swimming down I think I may love you
If you give me some time
Maybe you'll love me too I'll come closer to you
If you come over
I know we'll go farther
Farther with you
With you i'm in warm water swimming down
I'll come closer
To you if you
Come over
I know we'll go farther
Farther with you
With you i'm in warm water swimming down
