

Dead Behind the Eyes

Soulfly

Sky burns, no return
You sweat the hate from your flesh
Rejoice, through the void
Consumed by loss of breath
Human greed is our destruction
The abyss of your seduction
Demure, suffer
The grief a burden to bear
No pain, walk on fire
Holy mystic aura
Cenobites I know your kind
Dead behind the eyes
Self-inflicted, Cenobites
Dead behind the eyes
Endless, deathless
A cryptic inner fear
What's left, the wretched
And those who speak in your ear
Eviscerate your own impressions
Die along with your transgressions
Menace, penance
Horrific path to ascension
No pain, walk on fire
Holy mystic aura
Cenobites I know your kind
Dead behind the eyes
Self-inflicted, Cenobites
Dead behind the eyes
Dead behind the eyes!
All the flesh eaters
Skin crawlers
They tear you limb from limb
Blood feeders
Hellraisers
These vermin feed my rage!
Do you purge fire
Shed light
Or let them come tonight?
Nephilim
Seraphim
The lost paradise
Cenobites, Cenobites
I know your kind, I know your kind
You're all dead, all fucking dead
Behind the eyes
