## Witches' Dance

## **Mercyful Fate**

Just like a demon's eye The moon was dancing on the blackened sky In my sleep nothing is real, dreaming... I'm dreamingI can feel the shadows lurking I can feel them closing in I can hear their evil chanting This is not a dream for a kingChorus: Dancing the Witche's Dance... Dancing the Dance Dancing the Witche's Dance... Dancing the DanceCold hands, leading the way Through the woods and into the night Outside nothing is real, dreaming... I'm dreaming I can see a fire burning Hooded shapes are all around I can see a throne of silver Thirteen we are in allChorusBefore the Goat Of Mendes... We all must take our turn Into the magic circle... Where still the fire burns We're spinning round and round... Until one takes a fall The fallen one will not return, the fallen one must burnSolo: DJust like a demon's eye The moon is dancing on the blackened sky I'm awake but nothing is real Dreaming... Not dreamingI can feel the shadows lurking I can feel them closing in I can hear their evil chanting This is not a dream at all ChorusI wish this was only a dream... A dream Within a dreamSolo: S/DDancing the Witche's Dance Dancing till Death
