Solo Dance

Martin Jensen

In the faded light you touch my body
I can feel your hands on my skin
Think you got me right where you want me
But you're just in my wayI came to party on my own
Don't need nobody in my soul
I get on to the beat I lose control
Yeah oh I go solo
Boy you can cool it down
I need to fool around
Just wanna dance dance dance
Dance dance dance
I know you want me
But I don't care baby
Just wanna dance dance dance
Dance dance danceDance dance danceIn the shade of night you're moving closer
We're on our way to cross the line
Think you got me right where you want me
But it's all in your mindI came to party on my own
Don't need nobody in my soul
I get on to the beat I lose control
Yeah oh I go solo
Boy you can cool it down
I need to fool around
Just wanna dance dance dance
Dance dance dance
I know you want me
But I don't care baby
Just wanna dance dance dance
Dance dance danceDance dance dance
