

# Catch Me (feat. Naaz)

## Yellow Claw & Flux Pavilion

Hey, you never had your head this way  
Are you still living in the place?  
They told me you'd been doing okay, okay  
In another world where you and me  
We show our hearts, yeah entirely  
Deliver me from reality  
And take me to my fantasy  
Tell me we can make this real  
If we can follow what we feel  
I'm running, but I've reached the edge  
And now I'm falling, so promise that you'll catch me  
Promise that you'll catch me  
Dreams forever in my head it seems  
I finally know what they mean  
I promise that one day you'll see, you'll see  
In another world where you and me  
We show our hearts, yeah entirely  
Deliver me from reality  
And take me to my fantasy  
Tell me we can make this real  
If we can follow what we feel  
I'm running, but I've reached the edge  
And now I'm falling, so promise that you'll catch me  
Promise that you'll catch me  
Promise that you'll catch me
