

# Brand New

## Next

Yo, let me start off by first apologizing  
Girl, you think I take you for granted  
But um  
I'm here to take it back Can we pull back a minute and make believe that?  
I don't know you and you don't know me  
Darling, let's pretend  
This old school love is brand new Can we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend  
This old school love is brand new I know I shouldn't have to ask  
But it seems that I've relaxed  
And I'm getting the feelings that  
It's time I take it back  
[Incomprehensible] night escapes  
In the car callin' out my name  
You being scared when your friend was late  
Then being cool when it finally came, those were the days Can we pull back a minute and make  
believe that?  
I don't know you and you don't know me  
Darling, let's pretend  
This old school love is brand new Can we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend  
This old school love is brand new Way back when hickies were the thing  
You wore bloomers, not that sexy G-string  
And gettin' blue balls was a daily thing  
But it was alright, with me  
To when that very first time went down  
How you moaned when I went down  
You were the one, I had no doubt  
We need to get that back right now 'cause those were the days Can we pull back a minute and  
make believe that?  
I don't know you and you don't know me  
Darling, let's pretend  
This old school love is brand new Can we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend  
This old school love is brand new We're still here  
'Cause we conquered every feeling  
The fire burns inside like yester year  
My baby since back in the day We knew it would be us  
Holding on to that first crush

Had to say today, is what it was  
So let's keep on sending, it's only beginning  
Can we pull back a minute and make believe that?  
I don't know you and you don't know me  
Darling, let's pretend  
This old school love is brand new  
Can we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend  
This old school love is brand new  
Can we pull back a minute and make believe that?  
I don't know you and you don't know me  
Darling, let's pretend  
This old school love is brand new  
Can we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend  
This old school love is brand new  
Back, like Cadillacs and hubcaps  
Back, like leavin' letters in your nap sack  
Back, like Jellies and pro keds  
Back to girl, when we first met  
Back, to when Mike had the glove on  
Back, to when our love was so strong  
Back, to the days I know you miss  
I'll give back, I promise this  
Can we pull back a minute and make believe that?  
I don't know you and you don't know me  
Darling, let's pretend  
This old school love is brand new  
Can we explore the places I've already been?  
Just tell me where and I'll kiss it again  
Darling, let's pretend  
This old school love is brand new  
Let me explore the places I've already been?  
Tell me where and I'll kiss it again  
Darling, let's pretend again, let's pretend  
Baby, I wanna just love you, I wanna love you  
I wanna love you, [Incomprehensible] you, [Incomprehensible] you  
That's all I wanna do, baby  
All I wanna do, love
