

Inhale

Common

In-Inhale
In-Inhale
In-Inhale
In-Inhale
In-Inhale
In-Inhale I breathe deep
Like an old man in a deep sleep
Or an Indian peace pipe
Identity be
The beginning, the end, the first, the last
Breathe into infinity
A verse that lasts
Got a chick in the south that be cursin' fast
When there was a drought then her thirst would last
The hunger of a homeless
Microphonus
Played the game - it got a bonus
Man is the plan
The master like Tiger
So much is the drive
I am the definition of a rider
Daughter's name means survivor
From a tribe-a
Colliders
Just one word can't describe her
A scribe of the streets
And a good life that we all wanna reach
I'm hotter than a beach
Flow is so deep
Even underwater
I can inhale to bring the world in order
In-Inhale
In-Inhale
In-Inhale
In-Inhale
