

# Alone Again

## Betty Who

Get away, anywhere but here  
I'm gonna give you a break, driving 'til you disappear  
And maybe then you'll say  
"Don't ever leave me alone again"  
You say those three little words like it's the same as saying  
You like my hair when I wear it this way  
But you don't seem to care  
I don't wanna end up alone again So come a little closer, closer  
Let me know if you're coming over, over  
I'll be sure to leave the lights on, lights on  
You'll undo me like in a love song, love song  
So won't you please  
Just tell me what you want  
I'm waiting all night long for you  
To tell me what you need  
So, baby, we can be alone again  
Waiting for you to come around  
Is like waiting for rain in a year-long drought  
But when it rains, it pours  
And you drown me out - all alone again  
But if there comes a day when you're fast asleep  
And you call out my name cause you're needing me  
I'll be the first to say you'll never have to be alone again So come a little closer, closer  
Let me know if you're coming over, over  
I'll be sure to leave the lights on, lights on  
You'll undo me like in a love song, love song  
So won't you please  
Just tell me what you want  
I'm waiting all night long for you  
To tell me what you need  
So, baby, we can be alone again  
So come a little closer, closer  
Let me know if you're coming over, over  
I'll be sure to leave the lights on, lights on  
You'll undo me like in a love song, love song  
So won't you please  
Just tell me what you want  
I'm waiting all night long for you  
To tell me what you need  
So, baby, we can be alone again
