## Hold On 'Til the Night

## **Greyson Chance**

Watching the minute hand Frozen solid not moving Still we believe we can But we're afraid of losing Watching from over here It's hardly worth competing I'm almost out of here Why break a heart thats beating?Just as i start giving up I'm not backing up Run into the light Get out of your own way Not afraid to fight Believe in what you say I'll hold on till the night Hanging by a thread I'm not scared to let go Thoughts inside your head That creep up to get you I believe this is right So I'll hold on til the nightI climbed up on a tree To get a new perspective If love is worth the time The price is being rejectedJust as i start falling down I turned this around Run into the light Get out of your own way Not afraid to fight Believe in what you say I'll hold on till the night Hanging by a thread I'm not scared to let go Thoughts inside your head That creep up to get you I believe this is right So I'll hold on til the nightHold on til I'm with you All I've got to give you All my fears are slowly fading to never know Yes, I start running running running!Run into the light Get out of your own way Not afraid to fight Believe in what you say I'll hold on till the night

Hanging by a thread I'm not scared to let go Thoughts inside your head That creep up to get you I believe this is right So I'll hold on til the night
