

# Living Proof

Camila Cabello

Ooh Tell me something, but say it with your hands, slow  
When you touch me, paint me like a  
Van Gogh

I wanna study every inch of you  
'Til you trust me to make the angels come through  
Like a choir singing "Hallelujah"

When my body's crashin' right into you

When we align, oh yeah

Do you feel me?

Can you feel me?

'Cause I can't breathe

Where did you come from, baby?

And were you sent to save me?

Ooh, there's God in every move

Ooh, and you're the living proof (Oh)

The way your hands can shake me

Soft to the touch like, baby

Ooh, there's God in every move

Ooh, and you're the living proof (Oh) Countin' freckles, as they run down your spine

Show your demons, and I might show you mine

One at a time, yeah, yeah

What are you hidin'?

What a design, yeah, yeah

I wanna dive in, what a divine moment

Can you feel me? (Oh)

Can you feel me? (Oh)

'Cause I can't breathe

Where did you come from, baby?

And were you sent to save me?

Ooh, there's God in every move

Ooh, and you're the living proof (Oh)

The way your hands can shake me

Soft to the touch like, baby

Ooh, there's God in every move

Ooh, and you're the living proof (Oh) Like a choir singing "Hallelujah"

Oh, yeah, choir singing "Hallelujah"

Like a choir singing "Hallelujah"

Hallelujah, hallelujah

singing "Hallelujah"

Body's crashin' right into you (Oh)

Do you feel me?

Can you feel me?

'Cause I can't breathe Where did you come from, baby?

And were you sent to save me?

Ooh, there's God in every move (Oh)  
Ooh, and you're the living proof (Oh)  
The way your hands can shake me  
Soft to the touch like, baby  
Ooh, there's God in every move (Oh)  
Ooh, and you're the living proof (Oh) Like a choir singing "Hallelujah", oh yeah (Baby, baby)  
singing "Hallelujah" (Baby, baby)  
Like a choir singing "Hallelujah" (Ooh, ooh)  
Hallelujah, hallelujah (And you're the living proof, oh)
