

Start a Fire

TLC

I can start a fire
Even in your sleep
Maybe we can start a riot
While you rest in me
Taking off like a red eye
I'm the last one to leave
Sippin' me for a nightcap
Got you bustin' in your dreams Oh yeah, oh yeah, oh yeah
Oh Yeah-ah-ah
You can find me in
Find me in, find me in
You can find me in
Find me in, find me in
You can find me in
Find me in, find me in
Find me in your dreams
You can find me in
Find me in, find me in
Find me in your dreams Yeah yeah, find me in your dreams
Yeah, yeah, yeah Find me in your dreams
Where I will be hiding
You can find me in your dreams
Where I will be hiding
You can find me in
Find me in, find me in
Your dreams
You can find me in
Find me in, find me in
Your dreams Boy you find me in
Boy you find me, find me
Boy you find me
We can do what we
We can do what we I can start a fire
Even in your sleep
Maybe we can start a riot
While you rest in me
Taking off like a red eye
I'm the last one to leave
Sippin' me for a nightcap
Got you bustin' in your dreams Oh yeah, oh yeah, oh yeah
Oh Yeah-ah-ah Find me in your dreams
Where I will be hiding

Find me in your dreams
Where I will be hiding You can find me in
Find me in, find me in
Your dreams
You can find me in
Find me in, find me in
Your dreams Boy you know you got me all in your head
Dreamin' about me, i'm all in your bed, bed
You know I ain't goin' nowhere
Anytime you want it, you can come get it, yeah
I'll be right in your dreams
